Professional Resume:

José Carlos Nunes de Oliveira (VN Famalicão, 1973) is a Portuguese architect.
He was part of Álvaro Siza Vieira's team from 2000 to 2021, where he was responsible for different projects and constructions, part of which in collaboration with Arch. Eduardo Souto Moura. Currently dedicated to author activity, he focuses his research on landscape design, architecture, and everyday objects. He maintains some projects in co-authorship with Arch. Álvaro Siza, Arenas y Asociados Ingeniería, among others.

Regional Adviser at *Asia Designer Communication Platform*, visiting professor at the Master in Architecture and Design (MArch) at the *Universidad Europea de Valencia* since 2015 and at the *Facultad de Arquitectura y Urbanismo* at the *Universidad de Belgrano*, 2020. Having frequently been invited as a visiting lecturer to architecture conferences, workshops and exhibitions at various national and international universities and institutions, the highlights go to the 2019 International Architecture Biennial of Buenos Aires, and the International Congress of Architecture in Queretaro, Mexico, as well as the ABC.GOV Conferences in Yerevan, Armenia, 2023.

He graduated in 1998 at ESAP, under the supervision of Arq. Nuno Mateus (ARX Portugal, Lisbon). In 1996, while still in his 4th year, he gets his first project for a house, and starts his professional activity. From 1998 to 2000 he works with architect Paulo Costa and collaborates with architect Jorge Teixeira de Sousa.
In 2001 he officially founded his office NOARQ in Porto, and works alongside other colleagues while still collaborating with Arch. Siza.
In 2002, he obtained the Advanced Studies Diploma in the PhD at the *Universidad de Valladolid.* Due to the intense project activity, he interrupted his doctoral thesis.
Alongside his collaboration with the architect Siza and his activity, in 2003, together with his parents, he founded B.LOFT, a shop for interior design and designer furniture.

Actively engaged in many national and international architecture competitions, his work has earned numerous awards and distinctions. The work of NOARQ studio is documented in detail in two international monographs and has been widely published in the national and international specialist press.
